Applicable Codes and Ordinances

The effective Code of Ordinances governing this project is the Town of Davie Land Development Code.

Land Development Code (Section 12-305), Rezoning, Special Permits, Variances, and Vacations or Abandonments of Rights-of-Way, the purpose of this division is to guide the processing and granting of rezonings, special permits, variances and vacations or abandonments of rights-of-way in a manner consistent with the Town of Davie Comprehensive Plan, existing development and in a manner which protects the public health, safety and welfare.

Land Development Code (Section 12-24 (I)(4)), the R-5, Low Medium Density Dwelling District is intended to implement the five (5) dwelling units per acre residential classification of the Town of Davie Future land Use Plan and the residential classification of the Town of Davie Comprehensive Plan by providing for low-medium density single-family dwelling district.

Land Development Code (Section 12-81A), Conventional Single-Family Development Standards for R-5, Low Medium Density Dwelling District, minimum lot area 7,000 sq. ft., minimum lot frontage 75 feet, maximum height is 35 feet, maximum building ratio is 40%, minimum front setback 25 feet, side setback 10 feet, and rear setback 15 feet.

Comprehensive Plan Considerations

Planning Area:

The subject property falls within Planning Area 3. This Planning Area is bound by I-595 on the north side, I-75 on the west side, SW 14 Street on the south side and Flamingo Road on the east side. The planning area consists of residential uses developed at a density of 3 to 10 dwellings per acre, including the Shenandoah development, occupying the western half of the planning area, and several mobile home subdivisions.

Broward County Land Use Plan:

The subject site falls within Flexibility Zone 113.

Applicable Goals, Objectives & Policies:

Future Land Use Plan, Policy 5-2: The (re)zoning, (re)planning, and site planning of land shall be in compliance with the density ranges shown on the Davie Future Land Use Plan map and the applicable Future Land Use Designation provisions as contained in the Permitted Use portion of the Implementation Section.

Future Land Use Plan, Policy 17-3: Each development proposal shall be reviewed with respect to its compatibility with adjacent existing and planned uses.

Future Land Use Plan, Policy 17-7: Adopted land development regulations shall continue to set forth setbacks or separation regulations, landscaping requirements, and minimum open space criteria to enhance living and working environments.

In addition, the Interlocal Agreement between the School Board and the Municipalities requires, as part of the development review process, to provide a copy of rezoning applications that could increase residential density to the superintendent. As such, the Planning and Zoning Division has provided copy of this rezoning application. Any comments by the School Board will be provided at the time received.

Application Details

The subject site is located at the northwest corner of Southwest 14th Street and Southwest 130th Avenue. The site consists of two parcels. The parcel to the south known as Lorson Estates was rezoned to R-5, Low Medium Density Dwelling District in 2006. The petitioner is requesting approval to rezone the north parcel of the subject property from A-1, Agricultural District to R-5, Low Medium Density Dwelling District, making the zoning uniform through the site to allow a 38-units residential development on both parcels. The rezoning will also provide consistency with the existing Land Use designation of Residential 5 DU/AC.

Public Participation

The public participation process provides the ability for citizens of the Town of Davie to actively participate in the Town's development procedures. The petitioner conducted meetings with the public at Flamingo Elementary School on March 3, 2006 and March 10, 2006. In addition, the petitioner conducted an additional meeting after the purchase of the south parcel known as "Lorson Estates" on December 17, 2007 at Flamingo Elementary School. Attached is the petitioner's Citizen Participation Report.

Staff Analysis

The following information is staff's analysis based on the criteria established in the Town of Davie's, Land Development Code, Section 12-307(A)(1) for rezoning applications:

- (a) The proposed change is contrary to the adopted comprehensive plan, as amended, or any element or portion thereof;

The Comprehensive Plan allows parcels within the Future Land Use Plan Map designation of Residential 5 DU/Acre to be rezoned to the R-5, Low Medium Density Dwelling District.

- (b) The proposed change would create an isolated zoning district unrelated and incompatible with adjacent and nearby districts;

Rezoning the parcel from A-1, Agricultural District to R-5, Low Medium Density Dwelling District will be consistent with abutting residential zoning. This proposed rezoning would also be compatible with CF, Community Facility, to the north and west.

- (c) Existing zoning district boundaries are logically drawn in relation to existing conditions on the property proposed for change;

The existing A-1, Agricultural District zoning designation is inconsistent with the Future Land Use designation of Residential 5 DU/acre. The change to R-5, Low Medium Density Dwelling District would be logical and consistent with the Comprehensive Plan..

- (d) The proposed change will adversely affect living conditions in the neighborhood;

Rezoning the parcel from A-1, Agricultural District to R-5, Low Medium Density Dwelling District is not expected to adversely affect living conditions in the neighborhood; to the contrary, it will maintain the stability of the surrounding residential developments.

- (e) The proposed change will create or excessively increase automobile and vehicular traffic congestion, above that which would be anticipated with permitted intensities or densities of the underlying land use plan designation, or otherwise affect public safety;

Rezoning the parcel from A-1, Agricultural District to R-5, Low Medium Density Dwelling District will not generate more traffic than anticipated by the Future Land Use designation.

- (f) The proposed change will adversely affect other property values;

The proposed single-family residential development is consistent with adjacent residential uses, and is not expected to have a negative impact on the value of the adjacent properties.

- (g) The proposed change will be a deterrent to the improvement or development of other property in accord with existing regulations;

Rezoning the subject site will not deter improvements to the surrounding developed properties since all properties are required to meet existing Land Development Code.

- (h) The proposed change will constitute a grant of special privilege to an individual owner as contrasted with the welfare of the general public;

Rezoning the subject site does not give the owner a unique benefit that harms the welfare of the general public.

- (i) There are substantial reasons why the property cannot be used in accord with existing zoning.

The subject parcel must be rezoned to be consistent with the current Future Land Use designation of Residential 5 DU/acre.

- (j) The proposed rezoning is the most appropriate designation to enhance the Town's tax base given the site's location relative to the pattern of land use designations established on the future land use plan map, appropriate land use planning practice, and comprehensive plan policies directing land use location.

The subject site's Future Land Use Plan Map designation is Residential 5 DU/Acre. The proposed residential development is consistent with the underlying Land Use classification. The proposed development will enhance the Town's tax base.

Staff finds that the rezoning request complies with the general purpose of the proposed R-5, Low Medium Density Dwelling District. The rezoning request is in conformance with all applicable Codes and Ordinances and is consistent with the other surrounding zoning districts. Furthermore, the rezoning request can be considered compatible with surrounding uses.

Staff Recommendation

Staff finds the application complete and suitable for transmittal to the Planning and Zoning Board and Town Council for further consideration.
